forensic analysis of drugs - spectra analysis - selection of laboratory methods. the specificity of infrared spectroscopy is well suited to reduce uncertainty in the identification of isomers. spectra analysis provides an instrument designed to meet the work flow needs of forensic laboratories. the discover gc is a "walk-up" instrument, capable of high sample volume automated processing. it provides requisite sensitivity for the ...

chapter 3. laboratory fourier transform infrared ... - 57 chapter 3. laboratory fourier transform infrared spectroscopy methods for geologic samples p.l. king¹, m.s. ramsey², p.f. mcmillan^{3, 4}, & g. swayze⁵ **infrared spectroscopy on minerals and rocks** - source: hecker et al (2013) thermal infrared spectroscopy in the laboratory and field in support of land surface remote sensing, in "thermal infrared remote sensing", springer.

laboratory infrared spectroscopy of ... - fhi-berling - laboratory infrared spectroscopy of cationic polycyclic aromatic hydrocarbon molecules josoomens, 1a.g.g.m.tielens,² borisgrtakov,^{1,3} gertvonhelden, and ... **applications of mid-infrared spectroscopy in the clinical ...** - transform infrared spectroscopy; medical laboratory science; mid-infrared absorbance spectroscopy; vibrational spectroscopy introduction fourier transform infrared (ftir) spectroscopy is a widely used technology for the analysis of biological samples [1], as it provides complete information on the chemical composition of samples and can both offer fundamental structural information and serve ...

concepts and methods of 2d infrared spectroscopy - assets - concepts and methods of 2d infrared spectroscopy 2d infrared (ir) spectroscopy is a cutting-edge technique, with applications in subjects as diverse as the energy sciences, biophysics and physical chemistry. **unit 23: chemical laboratory techniques - higher nationals** - unit 23: chemical laboratory techniques unit code: h/601/0355 qcf level: 4 credit value: 15 x ... spectroscopic techniques eg infrared spectroscopy, ultraviolet/visible spectroscopy; chromatographic techniques eg thin layer chromatography yields: theoretical and percentage yields report: formal laboratory report; other methods of reporting eg completion of a proforma, oral presentation ...

validation methodologies of near infrared spectroscopy ... - the validity of quantitative methods using near-infrared spectroscopy. this review is oriented in pharmaceutical applications. decision methodologies used to validate nirs methods there are four main decision methodologies used to assess the validity of analytical methods, namely the descriptive approach as in any analytical method, a mandatory step at the end of the development of a near ...

nir spectroscopy - a guide to near-infrared spectroscopic ... - a guide to near-infrared spectroscopic analysis of industrial manufacturing processes 5 1 preface near-infrared spectroscopy (nirs) is a simple, quick (polymer identification using mid infrared spectroscopy - ft-ir spectroscopy is a powerful tool for polymer analysis, and a range of sampling methods are available with varying degrees of sample compatibility and time requirements. **determination of asphaltene content in crude oil by ...** - attenuated total reflectance infrared spectroscopy and neural networks algorithms silvia colaiocco m. and manuel farrera pdvsa intevap analytical chemistry department caracas, venezuela introduction the asphaltene content of a crude oil is defined as the percentage weight of insoluble constituents in a paraffinic solvent, mostly n-heptane, under specific test conditions. the determination of ...
